

In the tradition of “What Did You Screw Up Today”, author Larry S. Bonine provides a clear and straightforward leadership book that helps readers become more effective leaders in the construction and transportation industries. Chapters highlight ten essential Swing Keys that help readers lead and produce highly successful projects.

Larry S. Bonine is a much sought after speaker, trainer and author for the Construction and Transportation Industries. Widely recognized as one of the pioneers of Partnering in the Construction Industry, Larry spends much of his time helping high profile projects successfully focus on Partnering.

The former Director for the Arizona Department of Transportation and District Engineer for both the Little Rock and Mobile Corps of Engineer Districts, Larry is incredibly entertaining and motivating. Using his lifetime of experience in construction and working with engineers, Larry successfully conveys the importance of Leadership in a humorous and effective way.
